Years Celebration

RHS 110 YEARS IN SHIPPING

FREIGHT CONNECTION IS CELEBRATING ITS 15 YEARS OF COMPLETION

WHAT KEPT FCG MOVING?

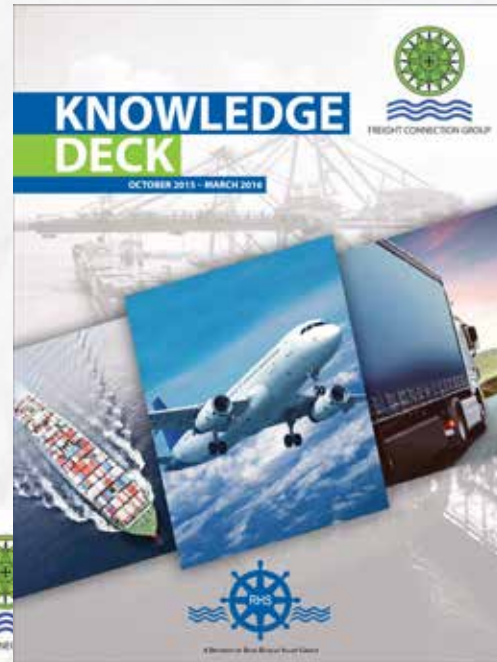

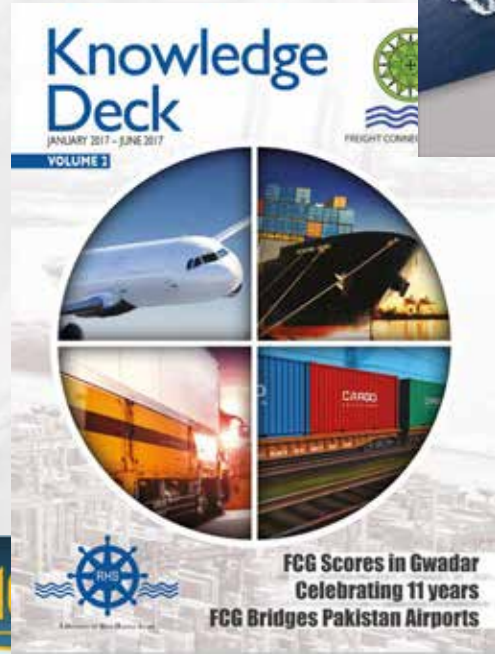

For the past 15 years, FCG has been profoundly working with an exquisite approach of goal setting and defining that has reciprocated well with our practices, making itself the core foundation of the company's growth. Providing our staff with a purpose and goal at the beginning of each year not just helped them engaging rightly into the company's functions, but it has also proved to be the ultimate strategy in moving ahead of the corporate sector. With the goal-setting approach in-hand, FCG has been able to undermine mutual objectives for the company and to stimulate them with each member of the company every time. It has boosted the level of trust and loyalty among both the vendors and Stakeholders and helped them understand that FCG works passionately for incredible outcomes. We believe that the unanimous efforts of every stakeholder and shareholder are necessary for any business's success and no company can reach heights all alone.

Employee growth, at FCG, is an incredibly continuous process. We do not believe in restraining or limiting an employee's role to a particular department or skill; instead, we provide them with a multi-tasking environment where they can learn, grow and develop into a complete professional. FCG strives to provide each employee unit with a mutual purpose so that they can grow big and successful as a family.

FCG believes that an employee's growth is highly dependent on how they are being lead. To ensure their constructive growth, we have gathered top-notch talent in our leadership.

Our leadership believes that employees are an integral part of any company's growth and are highly compelled to work with them and help them grow by all means.

MESSAGE FROM DIRECTOR

KHURRAM NIAZI

At FCG, the business is conducted in a true professional and transparent manner which brings value to the customers and makes us stand in a different league. We make all efforts to bring ease and comfort for our customers by assuming the role of the partner in their business.

Our core values are to assist businesses to attain the right strength and augment our colleague's worth. We do everything to live up to our client's requirements & expectations. In terms of quality and cost-effectiveness, we provide the best rates in the entire market providing no compromise on punctuality, quality & consistency with care.

I am proud that our customers trust us and maintain a long-term relationship. We have come a long way to gain market consideration and trust where our employees have been the greatest asset. For the development of Human Resources, we consider providing in-house on the job training, workshops, internships, evaluation, personnel management and consultancy as the key to our success.

MESSAGE FROM C.E.O

CHANGEZ HASSAN NIAZI

In the ever-evolving challenges of the business world, each of us has this urge to become part of an unbeatable and admirable team. Cheers to my fate, I have been a part of the team which collaborates the best of its efforts every time and strives to achieve undeniable success everywhere they go. I have been working with FCG for more than a decade and each day at workplace has proved to be a learning opportunity for me.

Achieving Success with Consistency and Resilience

With the consistency and resilience of our team, FCG stands ahead of all the competitors and rules the freight and shipping industry of Pakistan with pride. Our systems do not compromise on quality and that's what makes our foundation stronger every day.

Standing Upright with Innovation

The core practice followed at FCG every day is an adaption to innovation without biases. Thus, it has been our timely adaption to innovations, effortless commitment to quality, and disciplined fiscal dealings which keeps our operations upright even through difficult times.

Creating Brilliance with Employees

With an utmost spirit of entrepreneurship and professional understanding of dealing in the shipment industry, FCG has been able to indulge its employees into the company's operations at their best, and it is their in-depth learning and practical knowledge that has led us to this day where we stand ahead in the market with integrity and competence.

Growing every day with the same spirit, we along with our employees look forward to reciprocating more with technology and the trends of the new era to bring exclusive and incredible freight and shipping services into the industry of Pakistan.

CORPORATE SOCIAL RESPONSIBILITY

“Your Business Can’t Win If The Society Around You Fails”

The above-stated belief encourages the company's faith in its corporate social responsibility policies and ethics.

Having well-established policies that determine the companies' actions, Freight Connection Group has formulated its empire on a purpose to serve the society with its intentions based on its corporate social responsibility ideologies.

Ever since the company began its journey in the corporate sector, there hasn't been a single day when we didn't preach and practice our corporate social responsibility norms and values. Stressing on our share of efforts for the betterment of the society, Freight Connection Group has been determined to succeed in providing the country with beneficial and meaningful endeavors.

Making our corporate social responsibility policy an integral part of our decorum, here's what we have managed to provide the country with, apart from our high-quality operational work that meets international standards.

FREIGHT CONNECTION GROUP'S SPONSORS SCHOOL FOR THE UNDERPRIVILEGED:

Believing in the power of education, Freight Connection Group has wholeheartedly sponsored a government school that helps in educating the future of our country.

Our principles have taught us to exercise equality neglect discrimination while assisting our valuable clients at work, therefore, our aim to spread similar teachings within the society compelled us to build this school in the underprivileged area of Karachi.

The school has managed to educate several underprivileged children of the country. And with Freight Connections Group sponsorship programs, almost 300 girls of the school have been provided educational support.

FREIGHT CONNECTION GROUP'S EFFORTS FOR THE DEAF REACH SCHOOL IN PAKISTAN:

As the official website of the school states, "The Deaf Reach Program is an initiative of Family Educational Services Foundation (FESF), a non-profit educational organization active in Pakistan since 1984. FESF is dedicated to enhancing the quality of life for all members of the community, especially those who are disadvantaged," FCG stands hand in hand with the beneficial initiative. Considering the need for financial help in such non-profit organizations, FCG offers a yearly donation to the organization so that the initiative to educate the deaf children in Pakistan faces no obstacle.

FREIGHT CONNECTION GROUP'S SUPPORT TO RECREATIONAL ACTIVITIES IN PAKISTAN:

Corporate Social Responsibility policy compels the companies to help build their country stronger and independent. Keeping these policies in mind, Freight Connection Group has managed to show support in the sports and recreational sector of Pakistan.

Apart from sponsoring educational support, the company has been upfront in promoting sports and recreational activities in the country, and Regatta is one of them.

FOUNDER MEMBERS

Since 2005, We started with 5 employees and now 450 employees in the FCG family.
Interviewed founder members

Khuram Niazi

Designation: Director

At FCG, 15 years has been very meaningful. Leading a small startup to a large company is to learn and craft a corporate purpose that pushes employees to work towards the common goal- which is not just to the employees, shareholders, and the customer but also the greater good. I thank our shareholders, employees, customers and partners for their endless support to make FCG, a leading enterprise working toward the purpose of digitalization (Smart Business). Network coordination +data intelligence=smart business.

Kamran Ansari

Designation: CEO (LATE)

I feel so proud and extremely happy to see the growth of Freight Connection Pakistan.

A tree which I planted 15 years ago with 5 people today had not only grown to 450 people but also given us fruits like Axis/Move one/ Gateway and RHS Meridian.

My special salutes to the people, who started with me and joined me later become part of our success.

Victor John

Designation: Sales & Operation Executive

In 2005, I joined freight connection as office boy. Management saw my enthusiasm to learn, they provided me the opportunity to learn and grow myself. Today I am working as sales and operation executive in this firm.

Tariq Rizvi

Designation: GM- Overseas Development

Time is the most valuable assets after passing away it can never be repossessed. Today after spending 15 years of my life in FCPPL / FCG, I feel satisfied and happy to be an important part of this firm. It seems that it was just yesterday when we were planning of FCPPL commencement.

Taimur Niazi

Designation: Head of Terminals & Transport

FCG as it called today, started as FCPPL with a handful of dedicated, eager and ambitious professionals with the sole aim to excel and expand the FCPPL business as well as expand the human resource base to eventually come out as a well-knit family and a well-organized market leader in its industry.

FCG CULTURE

FAMILY CENTRIC COMPANY

Our company values strong kinship ties; being family centric and adding essence of our culture that signifies warmth and tradition in our products. Focusing over relationship building with integrity and cultural importance to empathize with family values accepted in our culture.

RATE OF EXPANSION

The rate of expansion has immensely boomed up as the company was born in 2005 having 3 employees but now the company has bunched up with the massive number of 450 employees who focus on values of cultural bond.

EMPLOYEE IS LIKE A FAMILY

We believe employees are like family and they need to have a special space in our hearts. Since we know family support is essential so we welcome our passionate workers to cherish their fun moments with their family in picnics organized by the organization.

EPITOME OF ARCHITECTURE

Our office interior is remarkably amazing setting an epitome of innovative design and architecture. It signifies that employees need a good environment to work and feel like they are at home. A feeling of wellness and trendy touch makes the worker provide high end results. These points out us as the touch stone for office interior and designing among our rivals

EMPLOYEE FOCUSED CULTURE

Prioritization of family needs is significant, understanding their views and a blissful environment is regarded by every company. So our proficient management team understands our culture of responsibility and sketches out feasts with families.

HIGHLY RATIONAL AND MODERN

You'll find exclusive yet extremely active technology under our banner. Working on newfangled software's leads us to be progressive and productive. We have set out the pattern of being techno friendly business.

OPEN DOOR POLICY

Our employee is our family and so we believe in building stronger bonds without misinterpretation. Just believing is not enough; we encourage our employees to speak out their hearts regarding any situation dealt by them. We appreciate them to confabulate about their queries anytime they want.

NO 1 HIGH QUALITY FIRM

We are the number one reconstructing, repairing and referring Service Company that symbolizes high quality standards and polished services among our competitors. We believe in responsibility and accountability. Along with being highly credible, reliable and long lasting

EMPLOYEE SATISFACTION

Employees need to be satisfied for transmitting loyalty and effective productivity and so for that the company must be highly appreciating and cherish customer's good points. This leads to retentivity and the rate of employee replacement is less which helps in maintaining the rate of turnover

WELFARE POLICY

Welfare policy is a factor of care and hospitality which should be regarded as a prime feature in every organization. That's why our company has designed policies for holding hands of their employees in their hard times that's what our culture portrays that family is everything and taking good care helps to build colossal bonds.

How FCG Grows?

“A Global Optimized Enterprise”

We at Freight Connection Group believe in accomplishing our goals rather than just managing them. Our company's growth analysis parameters were established based on the comparison. Rather, we always believed that our biggest competition is ourselves.

CONNECTING TRUST & SATISFACTION

FCP PROJECTS | Handles 250,000CBM annually

Your Utmost Logistics Solution

Freight Connection Pakistan (FCP) is a part of the highly recognized RHS group of companies and was initiated back in the year 2005, with their business focused on the freight and shipping industry of Pakistan. Since then, FCP is rendering incredible services and proving itself to be the right choice for its clients. From the land, to the sea, to the air, FCP provides a complete logistics solution with the utmost quality and works as a whole without the fear of competitors.

As a beginner in the freight industry, joining hands with the Afghan Transit Trade and providing remarkable services to the Military embassies, such as ISAF, NATO, and NGOs proved as a milestone for FCP. To be specific, the Afghan project experience proved as a learning aid for our team as it involved a variety of tasks from Batching plan Silo to Siemens project to LPG Tanks Transportation and a lot more.

Additionally, there is a range of ongoing projects to which FCP provides quality services including, Airport Project (Karachi, Islamabad, and Peshawar), HUBCO Coal Power Project (Baluchistan), Coal Power Fire Project (Sahiwal), Crawler Crane Project (Sahiwal), Solar Park Project, Heavy Construction Machinery Project, Gawadar Port Project and others.

The primary objective of FCP lies with the provision of top-quality services to each of its clients and achieve worldwide recognition in the freight and shipping industry. With courage, dedication, and professionalism, FCP possesses an incredible employee base and services portfolio that can be of use for each professional organization looking for services in the freight and shipping industry.

Connecting Trust & Satisfaction

FCG thrives in markets that offer challenges such as political instability, security, and poor transport structure.

Our Tech Savvy Partners in Operating Container Terminals

Axis Container Services was initiated back in the year 2007 with the utmost objective of becoming the world's most advanced and innovative empty container terminal operator in Pakistan.

By the Grace of God, and with continuous guidance of our peers, tireless efforts of our teams and continued patronage of many from the leading shipping lines across the globe; today, we stand upright with the high level of trust among the customers and never-ending loyalty with our services.

Axis started with a team of seven members and just one facility of 1500 Ties capacity within Karachi. They were the passionate efforts of our team that today, we are operating not only the biggest single empty park facility in Karachi, but also handle over half a million Ties annually through the network of our empty terminals spread in Karachi, Port Qasim, Lahore, and Faisalabad. Our collective capacity is over 35000 Ties across all our facilities in Pakistan, all of this was only possible with the support of our highly professional teams that are widespread up to 200 members.

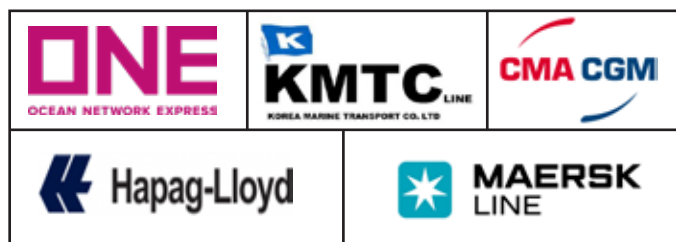

Axis has pioneered innovation by using the best as well as the latest equipment and techniques in the Maintenance and Repair department. We aim to provide each client with the highest level of craftsmanship.

Our team's academic and technical knowledge along with their hard work is playing a great role in helping us achieve our goals and maintain our standards.

Over the period, we have managed to develop an incredible clientele base, comprising of multiple leading Main Line Operators, like HLL, Maersk Line, CMA-CGM, APL, ONE Line, KMTC, etc. It has also been an honor for us to be recognized by the world's leading Reefer Container Manufacturing companies like Daikin Industries, Carrier and Transicold. They have appointed Axis as their authorized service and repair center as well.

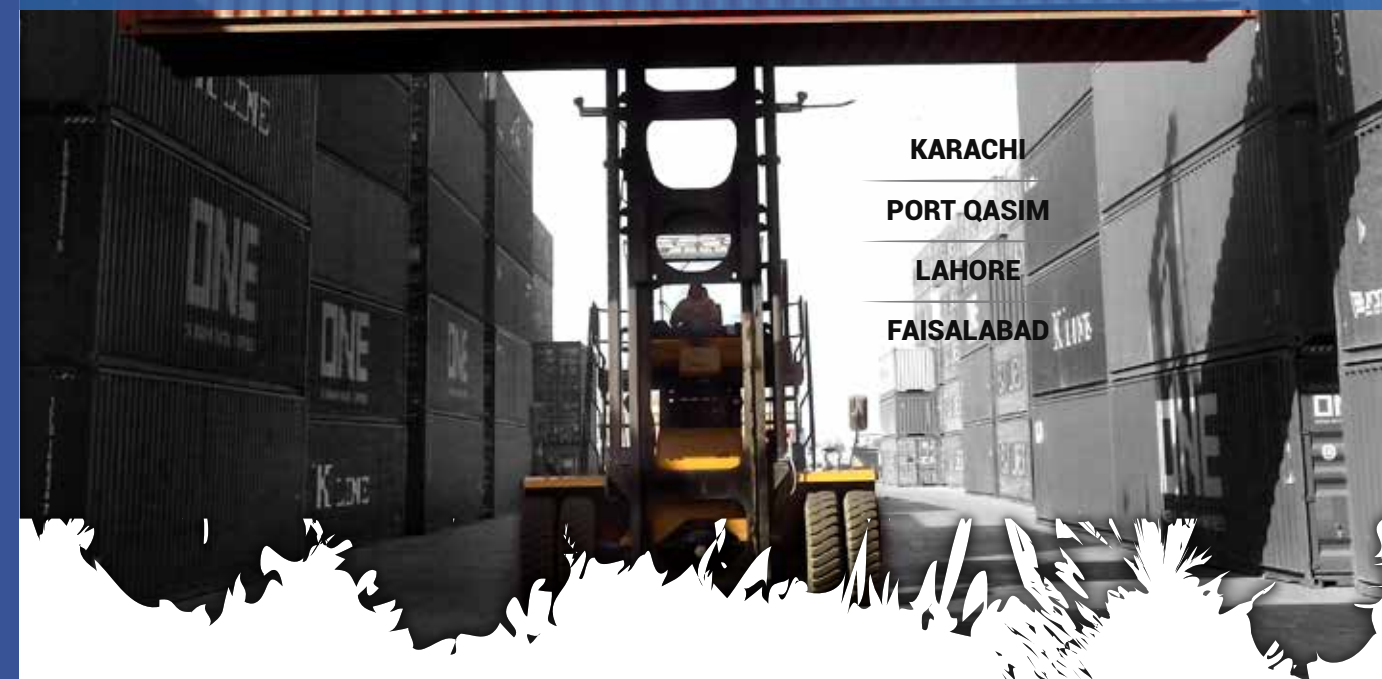

Going forward, our vision is to develop and invest further in the innovation and development of new products to offer our industry. We plan to expand our services into ICD locations of Pakistan and also develop facilities to handle special container/equipment in ICD locations.

We have the plan to develop & offer reefer management services to all shipping lines as well as port operators and also to develop services for handling & support to Flexi-Tank business in Pakistan.

An Astounding Name in Pakistan Freight and Shipping Industry

GES – a subdivision of Rais Hassan Saadi UAE established back in the year 1910 has become a benchmark in the freight and shipping industry. From an initial level, a freight services provider to becoming the pioneer of this industry, Gateway Express Shipping Pvt has surpassed a lot of challenges as well as achieved milestones. To get to know their struggles and milestones, let's take a ride into the GES journey!

Since the beginning, GES has followed the legacy of Rais Hassan Saadi and kept its operations at a qualitative edge. GES represents major ISO tanks operators offering stainless steel pressure vessels manufactured for the carriage of all kinds of liquid commodities. Small bulk parcels of hazardous and non-hazardous chemicals / lubes /oil additives / edible and food-grade liquids are transported using these tanks. Thus, GES guarantees safe and prompt transportation of liquid cargoes.

In the realm of delivering incredible freight services and unleashing itself as a pioneer of the shipping industry, GES has transcended so many obstacles including the management of ISO tanks, authentication of hazardous and Non-hazardous liquids, dangerous goods regulatory mechanism, disintegrated functions of logistics into a profound function. The very practice that saved GES from failing under any

circumstances was the dedication of their management and employees towards making the freight industry of Pakistan proud.

Overcoming all the obstacles, GES has achieved milestones in every field. The journey of becoming the pioneer of the freight and shipping industry has been backed with great achievements and has entitled GES with a lot of firsts. The list includes being the first-ever company to manage import and export of over three hundred ISO tanks in a month.

Today, GES stands atop the freight and shipping industry with a huge variety of satisfied clients – transporting all the chemicals and other liquid materials with ensured quality and in-time delivery to all of them. Chartering of break-bulk vessels for import and export of general and project cargoes from Pakistan, this includes but not limited to industrial plants, civil construction materials/machinery, Pakistan transportation and power projects. They have been proved as dynamic and successful experiences for the organization putting it closer to the attainment of their central goals and objectives.

To summarize, GES is the benchmark for freight/logistics industry setting standard efficient mechanisms for each different area of freight/logistics operations, and enjoying the essence of this position.

YOUR PREFERRED PARTNER IN LIQUID TANK CLEANING

PTO believes in making you part of the Innovative world

Pakistan's economy is developing at an unprecedented rate. The chemicals and petroleum sectors are considered a vital source of Pakistan's booming economy. Pakistan Terminal Operators (PTO) being the first dedicated and finest cleaning station established in Pakistan to facilitate ISO Tank cleaning and repairs. PTO is credibly known and recognized for quality ISO tanks cleaning standards.

Pakistan Terminal Operator established in 2013, aims to capitalize on both trends by offering a comprehensive logistics service to the chemical and downstream petrochemical industries. We focus on the safe and secure transportation of hazardous chemicals and dangerous goods in ISO tanks. PTO realizes the importance of such measures; therefore our specially trained ISO tank inspectors are constantly making extra efforts providing the utmost convenience for transportation of goods through ISO tanks.

Before PTO was established, there was no utilization of import empty unclean ISO tanks. Empty unclean tanks were exported empty to other cleaning facilities in the regional countries. This trend was costlier for Pakistan imports because empty unclean empty tanks were exported on tank operators cost which was incorporated in import price.

The PTO envisaged the future ISO tank logistics and established an ISO tank cleaning facility in Pakistan. It is a specialized ISO tank cleaning operation, using imported German cleaning plant and imported detergents to remove sources of contamination and odor from the tanks so the tank containers could be utilized for the export of liquid commodities produced in Pakistan.

Oracle-based ERP software is introduced at PTO so customers are provided tanks repair estimate through EDI files. Taking advantage of ERP solution customers can generate their work orders and approve cleaning /repairs on the web portal. They can view live inventory on the shared web portal making equipment control and management easy for them.

PTO is an ITCO member and our cleaning operations comply with ITCO standards. PTO's philosophy is to follow leading industry standards, such as those set by The Federation of Oils, Seeds and Fats associations (FOSFA) for contamination-free cleaning.

We are planning to expand our horizons in Lahore and Afghanistan by opening new ISO tanks cleaning and repair facilities. Dedicated ISO tanks terminal in Lahore will cater to Pakistan's Northern import and export demand and one in Afghanistan will cater to landlocked CIS countries 'demand for liquid commodities carried in ISO tanks.
